About the Cover

Appearing first as the antagonist in the 1959 Disney animated feature, *Sleeping Beauty*, "Maleficent" has become perhaps the most iconic villainesses in the pantheon of Disney baddies. Now, she's back in a live-action remake with costumes by designer Oliver Garcia.

Our cover features master-level costumer Rae Bradbury-Enslin in a truly off-beat take on the "queen of darkness" that she describes starting on page 17. The amazing background image is by Akşam Güneşi, a talented artist and student who lives in Turkey and publishes her work on DeviantArt under the handle [beyzayildirim77](https://www.deviantart.com/beyzayildirim77).
