## About the Cover

Worldcon 76, held in San Jose California in August 2018, brought together fans and authors of science fiction from around the world. The convention also awarded Hugo awards as well as Retro Hugo awards for 1943. SiW President Kevin Roche not only chaired the convention, but also designed this year's Retro Hugo statue.

Space plays a prominent role in sci-fi, and an article in this issue looks at the emerging role of fashion design in real-life spacesuits that will be worn by astronauts and passengers in the next few years. The article begins on page 16.

The cover background art is from the 2015 film, *The Martian*.
